btr^{Pen} Broken Tool Remover

Dental tool for removing broken canal instruments.

Seize the impossible!

- + single-tool system for every type of root canal
- + precise grip of the broken instrument
- + thinnest working tip on the market - only Ø 0,3 mm

- + the body made of surgical steel
- + life-long warranty

btr-pen.com

Only one on the market!

The tool combines new technology, fine quality and effective work. BTR Pen makes the removal of broken dental instruments a predictable, universal and repeatable procedure.

The usage of the ultrathin and highly-elastic working tip, together with ultimate-endurance nitinol loop, makes it easy to get to the broken canal instrument. The tool allows certain grip and safe removal of the broken canal instrument regardless of its position in the canal.

Included:

BTR Pen:

- ergonomic and comfortable handle equipped with grooves facilitating a secure hand grip
- made from high quality surgical stainless steel
- universal size
- designed for multiple use
- safe for autoclave sterilisation

Changeable tip with nitinol loop:

- the combination of a thin and highly elastic needle of $\varnothing 0,3$ mm with nitinol loop
- easiness in insertion into narrow and bent canals
- primary shape memory
- maximum endurance to stretching
- biocompatibility, corrosion resistance

Spring:

- full control of loop's tension and size
- optimized elasticity parameter
- guarantee of light and flawless moves
- freedom of fitting the spring toughness

Calibrator:

- quick and easy formation of the loop into desired size
- made from stainless steel
- designed for multiple use

NEW!

Endo Removal System

UPGRADED by K. Gończowski DDS, PhD, MSc

The ERS system is a universal set of instruments dedicated to the removal of broken parts of endodontic instruments from root canals under visual control by surgical microscope.

All parts of ERS are designed for **multiple use**

Handle

- one universal screwable handle matching all the types of working tips
- light construction and ergonomical design
- universal for both the right-handed and the left-handed dentists
- adapted to work in every position of operator's hand grip
- ergonomic trigger lever enables to regulate the strength of the grip on broken instrument

fi 0,8

fi 1

Working tip with **the movable wedge**

- available in 2 sizes (March 2019): 1.0 mm and 0.8 mm
- equipped with permanently joined luer-lock thread to perform effective disinfection and cleaning
- simple design resistant to user errors and mechanical damage
- microwindows with a diameter of 1 mm / 0.4 mm give perfect view under the microscope and serve as the additional mechanical retention!
- special design of the locking wedge effectively block inside the tube all types of the broken instruments including high taper rotary or reciprocal files
- smooth and extremely simple work thanks to the function of automatic reversing of the movable blocking wedge in the case of releasing the pressure on the trigger
- the tube can be inserted onto the broken instrument at an acute angle

loop

Working tip with **ligature loop**

- available in 1 size of 0,7 mm
- the ligature wire has shape memory
- enables to grip the broken instrument both from the front and from the side of the closing cone
- strong spring which guarantees smooth and extremely simple work

Additional elements available for purchase

The starting set includes:

- handle
- working tip with the movable wedge of 0,8 mm

The full set includes:

- handle
- working tip with the movable wedge of 0,8 mm
- working tip with the movable wedge of 1,0 mm
- working tip with ligature loop of 0,7 mm

Orange Guttane

00:02:07:21

The image shows the front of an Orange Guttane box. On the left is a circular logo with a tree and the text 'WYKONANE W POLSCE' and 'WYKONANE W POLSCE'. To the right of the logo, the brand name 'Orange Guttane' is written in large, stylized letters. Below it, the text 'Oil for dissolving gutta-percha' and 'Ciężki do rozpuszczania gutaperyli' is visible. On the right side of the box, there is a cartoon illustration of a monkey holding a large orange slice. Above the monkey, the text 'orange oil 100%' and 'olejek pomarańczowy 100%' is printed. A CE mark with '1011' is also present.
